Station Automation Control System

Complete SCADA-based automation for gas stations - design, integration & programming

Actual product appearance

CORE PARAMETERS

Experience
10+ years in station automation design & commissioning

Scope
Control configuration, HMI & system programming

Integration
Seamless with our full hardware & software portfolio

Applications
Gate stations, distribution stations, CNG/LNG stations

Deliverables
Turnkey automation control solutions

Customization
Configured per station requirements

PRODUCT FEATURES

- 10+ years of station automation design, engineering, commissioning and maintenance
- Seamless integration with our complete hardware & software product portfolio
- Full-service: design, selection, construction, programming and support
- Customized control configuration and HMI programming per station type
- Covers gate stations, distribution stations and CNG/LNG stations
